Re: Miguel Perez
Parcel # N09=018
Sumter County File # CE2008-0078

Dear Ms. Webb:

Attached is a postal money order in the amount of \$416.06, which is payment in full for the County staff costs as outlined in the above referenced Sumter County File # CE2008-0078.

Mr. Perez does respectively request that Sumter County Board of County Commissioners wave any fines that may have accumulated to this case.

H&B Consulting Engineers, Inc. is the engineer working on this site work and had the existing problem structure labeled on the approved site plan "To Be Removed". These site plans were approved on 7/20/09 by the County DRC

H&B Conveyed to Mr. Perez the importance of not doing any work on his site, until he has obtained all the required permits for the site. After he obtained all his required site permits, he was cleared by H&B Consulting Engineers to commence construction on 1/5/10.

However, due to the very poor economy, Mr. Perez was delayed in getting construction underway and removing the problem existing structure from the site.

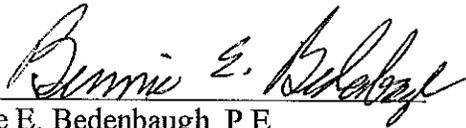

The Sumter County Board of County Commissioners has already agreed that the poor economy has impacted him in a recent request Mr. Perez made to them on 4/10/12, when the Commission extended his site plan permit.

The problem existing has been removed from the site and Mr. Perez is approximately 90% complete with his site work.

Therefore, Mr. Perez, would like to request an appeal directly to the Board of County Commissioners to drop any fines assessed against his property due to hardship conditions resulting from the very poor economy.

If there are any questions, please advise.

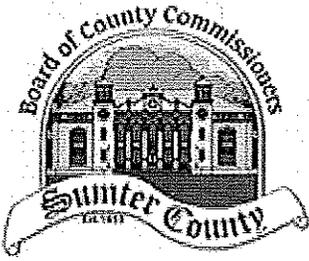

Thank you,

Bennie E. Bedenbaugh, P.E.
H&B Consulting Engineers, Inc.
