

Vector Disease Control International
Mosquito Control Specialists

August 21, 2012

Sumter County BOCC, Admin. Services
Financial Services Department
7375 Powell Rd.
Wildwood, FL 34785

Dear Board:

Vector Disease Control International, LLC (VDCI) agrees to provide Sumter County with the same services, terms, and pricing as specified in the Seminole County agreement for mosquito control services.

After each application, VDCI shall submit to Sumter County BOCC an invoice for all services provided. Invoices shall be payable to the following:

Vector Disease Control International, LLC
1320 Brookwood Dr., Ste. H
Little Rock, AR 72202

Ron Montgomery, Florida Operations Manager, will be your contact. Ron can be reached at (863) 512-9318 or by email at rmontgomery@vdcinet.net. If you have other questions, our business office can be reached at 800-413-4445 or by email at info@vdcinet.net.

Sincerely,

Debbie Clement
Chief Financial Officer
Vector Disease Control International, LLC

CONTRACT FOR AERIAL ADULTICIDING SERVICES

This agreement, dated _____ to provide Aerial Application Services is entered into between Vector Disease Control International, LLC (VDCI) with offices at 1320 Brookwood Dr., Ste. H, Little Rock, AR 72202 and Sumter County Mosquito Control (Customer) with offices at 319 E. Anderson Ave., Bushnell, FL 33513.

SCOPE OF SERVICES:

VDCI hereby agrees to provide Aerial Application Services for the application of mosquito control insecticides. VDCI shall provide all labor, equipment, supplies, insurance and any other requirements to complete the terms, conditions and specifications herein. VDCI shall furnish aircraft equipped for ultra-low volume (ULV) dispersal of insecticides used for the control of adult mosquitoes. It is understood and agreed that VDCI will provide Customer with the same services, terms, and pricing as specified in the Seminole County agreement for mosquito control services, as Customer is piggybacking off Seminole County's Contract RFP-600650-09/GMG.

MINIMUM SPECIFICATIONS:

A. General Contract Scope:

VDCI shall furnish one (1) multi-engine fixed wing aircraft to be used for ULV application of insecticides to control adult mosquitoes within the geographical confines to be determined by Customer. VDCI will provide all aircraft, personnel (including pilots), equipment, fuel, oil, maintenance, landing and tie down fees and all other items required to successfully complete the application(s). VDCI will respond with a 72 hour or greater notice.

B. Adulticide Specifications:

Product for adulticide use is to be determined by Customer. VDCI will apply the insecticide at a rate which is dependent on the product to be used (eg. 3.0 fluid ounces per acre). No applications will be at rates above and/or below those specified on the label.

C. VDCI's Responsibilities:

VDCI agrees to provide sufficient personnel with the capabilities which meet or exceed safety requirements for transferring product(s) to the aircraft in compliance with Federal Environmental Protection Agency (EPA), State and local agencies, as well as the ability to proactively contain any challenges associated with product spills.

VDCI shall provide a copy of each aerial spray mission report, showing spray altitude, release height wind speed, release height temperature, aircraft speed (ground speed), date and time of application, amount of insecticide applied, number of acres treated, and flight path showing "spray on" areas. Reports shall be submitted within forty-eight (48) hours after each application.

For all service requests, the following individual(s) should be contacted by Customer:

Primary Contact:

Name: Malcom Williams, Aerial Division Manager
Office Phone: (800) 413-4445
Mobile Phone: (318) 372-4073
E-mail: mwilliams@VDCI.net

Alternate Contact:

Name: Ron Montgomery, Florida Operations Manager
Office Phone: (800) 413-4445
Mobile Phone: (863) 512-9318
E-mail: rmontgomery@VDCI.net

VDCI shall be available for contact between the hours of 8:00 a.m. and 5:00 p.m. CST. VDCI shall be available at times specified by Customer to perform the Aerial Application Services with a seventy-two (72) hour notification.

D. Customer's Responsibilities: (If they supply pesticide)

Customer shall be responsible for supplying the insecticide to be applied, including delivery, containment, storage and empty insecticide container disposal (unless VDCI supplies the pesticides, then this will be VDCI's responsibility). Customer shall be responsible for delivery of the insecticide to the transfer loading site, to be determined by VDCI, at least two (2) hours prior to commencement of aircraft loading.

E. Aircraft:

VDCI shall make available at least one (1) multi-engine fixed wing aircraft capable of treating a minimum of thirty thousand (30,000 to 40,000) acres in one evening.

Note: More aircraft are available for acreages more than 40,000.

Aircraft used within the contract shall:

1. Be certified by the Federal Aviation Administration (FAA), and comply with all requirements of FAR Part 137, Agricultural Operation. An approved FAA congested area plan is required prior to commencement of operations by VDCI.
2. Be equipped with the Wingman™ GX aerial spray guidance system, manufactured by ADAPCO, Inc. The Wingman™ GX will process onboard meteorology accurate within less than one (1) knot; a two (2) degree vector and less than one (1) degree in temperature to be used for optimization in real-time and detection of a temperature inversion.
3. Be equipped with a ULV rotary atomizer spray system with nozzles that have been certified by a Malvern Laser Wind-Tunnel analysis or industry approved one inch (1") spinning Teflon impengers.
4. Be capable of applying approved larvicides and adulticides within label rates, at various operating protocols (i.e. swath width, ground wind speeds, etc.).
5. Be capable of GPS (Global Positioning Satellite) guidance with gridline capabilities. The system must have an accuracy of zero (0) to fifty (50) feet and be used on all aerial spray missions.

F. Application:

The Customer will supply VDCI with the geographical areas to be sprayed, date, time, alternate time, and the number of acres to be treated via the GIS software supplied by VDCI.

A representative to be named by the Customer will be available to monitor all aspects of the spray mission to ensure procedures are followed that will result in a successful best effort mission. Some of the items to be monitored may include:

1. Pre and post Landing Rate Counts (LRC)
2. Pre and post surveillance traps
3. Meteorological conditions (favorable or unfavorable)
4. Application protocols such as lane separation, altitude, etc.

The Customer's representative, along with VDCI, shall have the mutually agreed authority to approve, delay or terminate the spray mission(s).

During the mission VDCI will have the ability to perform the following:

1. Receive in real-time via an AIMMS-20 weather monitoring system, meteorological conditions at release height into the aircraft, specifically:
 - a. Temperature
 - b. Wind speed
 - c. Wind direction
 - d. Humidity
2. Based upon the cumulative effect of many variables such as droplet spectra, aircraft vortices, meteorology from multiple altitudes, evaporation, nozzle location, aircraft characteristics, product characteristics, source geometry (aircraft speed, release height) and application rates, VDCI will have onboard the aircraft the equipment necessary to optimize the application strategies, which result in increased droplet densities, product volume and most efficient droplet sizes into the intended treatment area, while minimizing off-target drift. In addition, the onboard GPS system will be capable of alerting the pilots of real-time meteorological changes and temperature inversions.
3. Through the use of the Wingman™ GX system's flight recording software, VDCI will have the ability to produce a digital GIS map capable or "replaying" the aerial mission as it was flown. This software will also graphically display the flight path, spray switch status, air speed, date, time, positional GPS coordinates, meteorological variables and spray cloud drift prediction data for each application.

G. Pilot Qualifications:

Pilots shall have the following qualifications:

1. Minimum of fifteen hundred (1500) logged and verifiable flight hours.
2. Minimum of five hundred (500) logged and verifiable hours in aerial application of insecticide to control mosquitoes.
3. Possess and maintain current certification in public health and aerial categories of pest control.
4. In addition to the above certification, copies of commercial pilot's license with multi-engine rating, first or second class medical certificate, FCC restricted radio operator's permit and copies of any other documentation required by the FAA, State and local agencies.

PRICING & PAYMENT:

Description of Service	Price Per Acre
1. Application only	\$0.82

In the event that the Customer changes the insecticide to be applied and/ or the application rate of the insecticide, VDCI reserves the right to change the Contract Price stated herein, upon mutual agreement of Customer.

After each application, VDCI shall submit to Customer an invoice for all services provided. All amounts shall be due upon receipt. Invoices shall be payable to the following address:

Vector Disease Control International, LLC
1320 Brookwood Dr., Ste. H
Little Rock, AR 72202

CONTRACT TERM:

This agreement will remain in full force and effect until December 31, 2012 (the "Termination Date"). Upon attainment of the Termination Date or any subsequent Termination Dates, if a letter of termination is not sent to VDCI at least 30 days prior to the termination date, this contract will be automatically renewed for a period one year. This contract may be renewed for a period of four (4) one (1) year renewals, subject to mutual agreement by both parties to any changes in the pricing and terms of this agreement.

HOLD HARMLESS & INDEMNITY

VDCI shall indemnify and hold harmless Customer, its officers, officials, employees, agents, and volunteers from and against any and all claims, liabilities, losses, damages, expenses or injuries, including attorney fees arising out of the operations of the contractor described herein, caused in whole or in part by any negligent act or omission of the contractor, or anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, except where caused by the active negligence, sole negligence, or willful misconduct of Customer.

INSURANCE REQUIREMENTS:

VDCI shall procure and maintain, at its own expense, for the duration of the contract, insurance against claims for injuries to person or damages to property which may arise from, or in connection with, the performance of the work hereunder by VDCI, his agents, representatives, or employees.

A. Minimum Limits of Insurance

1. Automobile Liability: \$1,000,000 per accident for bodily injury and property damage.
2. Workers' Compensation: Benefits as per Georgia statutory requirements.
3. Commercial General Liability: \$1,000,000 each occurrence, \$2,000,000 general aggregate
4. Employer's Liability: \$1,000,000 per accident for bodily injury or disease.
5. Aviation Liability Insurance: \$1,000,000 per occurrence. Any Chemical Coverage sub-limits shall be at least \$300,000/\$300,000/\$300,000 for bodily injury per person, bodily injury per accident & property damage

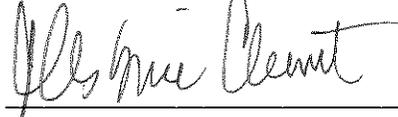

B. Subcontractors

VDCI does not subcontract out our applications. We are solely responsible for our work; we own and operate our own fleet of mosquito control aircraft.

E-Verify Vendor/Contractor/Subcontractor Certification

The Sumter County Board of County Commissioners has mandated that effective August 1, 2012, all vendors, contractors and subcontractors doing business with Sumter County must certify that they have implemented the federal E-Verify program.

E-Verify is a federal system established by the Department of Homeland Security to determine the immigration and work-eligibility status of prospective employees. Detailed E-Verify program information for employers can be found at <http://www.dhs.gov/e-verify>.

Prior to providing goods or services to Sumter County, vendors must certify compliance with the federal E-Verify program. In the case of contractors, this includes obtaining written certification from all subcontractors who will participate in the performance of the contract. The certification below has been prepared for all vendors and contractors to use for this purpose. All subcontractor certifications must be kept on file with the contract vendor and made available to the state and/or County upon request.

CERTIFICATION

(In accordance with Executive Order No. 11-02)

I certify that the company shown below is in compliance with the above statement and that I am authorized to sign on its behalf.

Name of Company: Vector Disease Control International
Authorized signature: *Debbie Clement*
Printed name & Title: Debbie Clement, CEO
Address: 1320 Brookwood Dr., Ste. H, Little Rock, AR 72202
Date: August 21, 2013
Telephone Number: (501) 280-0220
E-mail address: info@vdcii.net

Sumter County reserves the right to determine how it will respond to any instances of non-compliance or false certification of compliance. Potential County actions include, but are not limited to, cancellation of the contract and/or suspending or debaring the contract vendor from performing services in any aspect to the County.

Please send the completed form to the Financial Services Department, 7375 Powell Road, Suite 206, Wildwood, FL 34785, or fax the form to (352)-689-4436. Once the form is received by the Financial Services Department the completed form will remain on file according to the Sumter County Retention Policy.

Please contact the Financial Services Department at (352)-689-4435 with questions regarding this requirement.

The effective dates of this E-Verify Form shall be for the current fiscal year.
