FUNDING SOURCE:

Sumter Fire District

EXPENDITURE ACCOUNT:

182-182-522-3100

HISTORY/FACTS/ISSUES:

The Fire and EMS Division currently deploys Physio-Control LifePak 12 cardiac monitor/defibrillator/pacing devices for diagnosis and treatment during field patient care interaction. These highly sophisticated life-saving devices require annual service to ensure they operate within the parameters specified for the device.

The Technical Service Support Agreement with the manufacturer will ensure the devices are maintained within the technical specifications required. The agreement also provides replacement battery support, and discounted pricing on any additional parts and labor that may be needed. This agreement will provide for the annual maintenance and support for the division's six (6) LP 12 units at \$1,080 each, for a total annual service/maintenance cost of \$6,480. per year.
