**HISTORY/FACTS/ISSUES:**

F.S. 489 requires local jurisdictions to obtain current license and insurance information on contractors to which building permits are being issued. Since the building department is required to obtain this information, collection of the \$25.00 fee to retain it is unwarranted. Removal of this fee will not have a negative impact on the building department budget and will reduce costs to the contractors.

Staff recommends approval of the proposed building permit fee reduction.

Please find attached a resolution amending the fee schedule to delete the referenced fee.
