Brad,

Attached is the proposed language from Lake County to update the agreement to allow the additional radios for Rural Metro. I am sure with the changes coming in the radio systems we will be revising/changing things, but this would take care of our current issue. It has been reviewed by their attorney, so let me know where to go from here.

Greg,

Can you please provide suggested language to update the radio use agreement that we have between the two counties which allows for the use of your 800 system by Rural Metro. The desire would be to have it laid out where any future changes are approved as administrative changes that can be accomplished without going back before the BOCCs.

Thanks for your help.
