Approve ITB Committee Selection and Award on call contracts  
to AKCA Inc., and Fausnight Stripe & Line Inc.

**HISTORY/FACTS/ISSUES:**

This Invitation to Bid (ITB) was advertised on October 21, 2008 in order to secure bids for the intended purpose of placing under contract a firm or firms who can construct either new pavement markings or remark existing pavement markings for the Sumter Board of County Commissioners. It is intended that the majority of the work will be performed on County maintained roadways. However, there may be a need to construct new pavement markings or remark existing pavement markings on paved surfaces within County owned and maintained facilities. These paved areas may include parking lots, internal park roadways, bicycle or walking trails, etc.

The bids were due and received at 1:00 PM on Tuesday, December 2, 2008. A total of 2 bids were received on time. One bid was late and not opened or accepted. Public Works reviewed the bids and has made the following recommendations.

- Both AKCA Inc. and Fausnight Stripe & Line, Inc. are both FDOT approved contractors.
- Staff performed a comparative analysis of the bids submitted. The re-marking of a one mile section of a County collector roadway was utilized for this comparison.
- The low bidder (AKCA) bid on the thermoplastic pay items only. OK for PWD since we primarily use thermoplastic markings.
- The second low bidder (Fausnight Stripe & Line, Inc) also bid on the pay items for thermoplastic and is the only vendor who bid on the pavement marking in paint. BOCC has previously directed PWD to utilize paint on some site specific locations in the County and PWD may require a vendor to do such work.

**Recommendation:**

Award contracts to both vendors AKCA, Inc. and Fausnight Stripe & Line, Inc.; each end user agency will have the option to select the vendor that has the lowest bid pay item, may provide the fastest response and can provide the striping work (paint or thermoplastic) desired.

---

The Contractor shall be notified of work by means of an individual task specific Work Order issued by the Public Works Director. Quantities, estimated cost and a specific scope of work will be included with the Work Order.

## ADVERTISEMENT FOR BIDS

Advertisement of Bids from the Board of County Commissioners of Sumter County, Florida, for the "2008 Pavement Marking Contract" for either new pavement markings or the re-marking of existing pavement markings. **2008 PAVEMENT MARKING CONTRACT**

This request is intended to place under contract a firm or firms who can construct either new pavement markings or remark existing pavement markings for the Sumter Board of County Commissioners. It is intended that the majority of the work will be performed on County maintained roadways. However, there may be a need to construct new pavement markings or remark existing pavement markings on paved surfaces within County owned and maintained facilities. These paved areas may include parking lots, internal park roadways, bicycle or walking trails, etc.

Ideally it is the desired to contract with only one firm. But with level of specialization occurring in the contractor environment firms who perform "long line" work do not generally wish to perform "hand work". Therefore, the County will evaluate the unit prices submitted and decide to award contracts to most reasonable and responsive bidder or bidders.

**NON-RESPONSE REPLY**

If you do not want to respond to this ITB at this time or would like to be removed from the Bidder's List, please mark the appropriate space and return this sheet only.

- Not interested at this time; please keep our firm on your Bidder's List for future requests for this service.
- Please remove our firm from your Bidder's List for this type of service.

The respondent hereby agrees to furnish the services pursuant to all requirements, specifications, and scope of services contained in this solicitation document, and further agrees that the language of this document shall govern in the event of a conflict with his or her response. By my signature I certify that this response is made without prior understanding, agreement, or connection with any corporation, firm, business entity, or person submitting a response for the services, and is in all respects fair and without collusion or fraud.

**THIS HAS BEEN CHANGED TO:**

Bids will be opened by the Budget & Purchasing Department, at 910 NORTH MAIN STREET, ROOM#203 BUSHNELL, FLORIDA 33513 on **December 2, 2008 at 1:05 pm (Eastern Standard Time)** and the review committee recommendations will be presented to Sumter County Board of County Commissioners at their next regular scheduled meeting.

2. All Maintenance of Traffic costs are to be included in the various contract unit prices for either thermoplastic or paint pavement markings.
3. Invoices shall be submitted subsequent to receiving written notification from the Resident County Inspector that the work has been approved.  
Payment shall be on a work order basis

**Q2:** Vendor AKCA Inc: "How many work orders will be issued for each yearly term?"

**A2:** Unknown, if only one vendor is selected Public Works may choose to issue only one work order. Last contract only had two work orders were issued until funds were exhausted, since this contract is open to other County agencies there may be more work orders issued by others. Also, The Villages CDD's may want to piggy back this contract if the unit prices are acceptable to them.

**Q3:** Vendor AKCA Inc: "What will the percentage breakdown be of paint vs. thermoplastic?"

**A3:** Roadway 95% thermo, 5% paint. None-roadway 50% thermo / 50% paint is our best guest. Funding, service life and unit price will most likely govern such decisions.

**Q4:** Vendor AKCA Inc: "What is the breakdown between new striping (striping on newly constructed or resurfaced roads) vs. maintenance striping?"

**A4:** Our last contract was 100% maintenance, but the contract did not have a provision for new work. We would estimate the maintenance work will be not less than 80% but no guarantee can be made since this is not a site specific contract.

**Q5:** Vendor AKCA Inc: "Are you planning on reviewing quotes from each contractor and choosing, one to do paint and one to do thermoplastic, or one to do hand work and one to do long line work?"

**A5:** Unknown; when this contract was put together we anticipated one vendor will be used for long line work and a second for hand work. But if unit prices are submitted from a vendor are reasonable and that can accommodate all our anticipated needs there is a possibility of having only one vendor under contract.

**Q6:** Vendor AKCA Inc: "Will you consider a bid complete if the contractor only bids on paint and not thermoplastic or thermoplastic and not paint?"

**A6:** Yes we understand some contractors no longer perform paint work.

**Q7:** Vendor AKCA Inc: "The 4" pay items for paint and thermoplastic read (non roadway marking)."

**A7:** Yes but we cannot guarantee this conclusively, special needs do arise and are outside our control.

**Q8:** Vendor AKCA Inc: "Are your intentions for the 4" striping to be placed on paved surfaces within county owned and maintained facilities such as parking lots, bicycle or walking trails?"

**A8:** Yes

**Q9:** Vendor AKCA Inc: "How will the lowest bid be determined?"
