Re: Programming of CIGP Funding  
FPN 4297581 Resurface C-466 from CR-475 to CR-209  
FPN 4297591 Resurface C-469 from C-48E to SR 50

Dear Secretary Downs:

As you are aware, Sumter County has been allocated FY 2012 funding for two projects under the County Incentive Grant Program. These projects, C-466 from CR-475 to CR-209 located near the City of Wildwood and C-469 from C-48 E to SR 50 located near the City of Center Hill, are milling and resurfacing projects on corridors that meet the criteria established by the Lake~Sumter Metropolitan Planning Organization for regional significance. As such, the County's residents and visitors depend on these roadways to easily move about the County, safely reaching destinations in our urban centers and business districts. To ensure the continued safe mobility of our citizens, proper roadway maintenance is critically important. Both of these roadway segments are in urgent need of repair so Sumter County is especially appreciative that the Florida Department of Transportation is able to provide this funding.

Sumter County accepts the responsibility these funding awards carry and agrees to design and construct both projects. We will follow all LAP processes and not begin any CIGP funded phase until we receive the NTP from your office.

We value our relationship with FDOT and are looking forward to working together on completion of these important projects.

Sincerely,

Scott B. Cottrell, PE  
Public Works Director  
Sumter County

xc: Bradley Arnold, County Administrator  
Vickie Wyche, FDOT District 5 MPO Liaison
